ecobook

Workspace Management Software for The Smart Office

Ecobook is a modern, web-based room and desk management and booking system designed to help organizations control their spaces, maximize utilization and increase productivity in the workplace.

Ecobook helps you to:

01

Prevent conflicts and double bookings irrespective of how and where you book.

02

**Improves room and desk usage** through business rules and access rights.

03

Provides complete control, visibility and security over rooms and desks.

Total Workplace Solution

As a complete workplace solution ecobook can be configured to take care of any workplace scenarios. Whether it is an multinational organization, a university campus or a co-working space, ecobook provides the necessary controls, features, and capabilities to cater to the varying needs of the workplace.
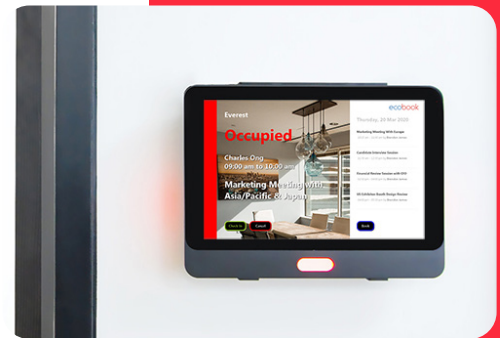

Simplified Booking Anywhere, Anytime

Use your browser, mobile app or outlook plugin to view and book meeting rooms and desks. Choose between scheduler, and layout view to check for availability. Book, edit, cancel, check-in, and check-out from your bookings. Get timely email or app notifications of your bookings.

Room & Desk Display Tablets

Beautifully designed touch screen display devices mounted outside rooms or on top of desks. Intuitive LED lights to broadcast availability. Book, extend, end, and cancel from the device. Check-in/out using NFC card or unique PIN.

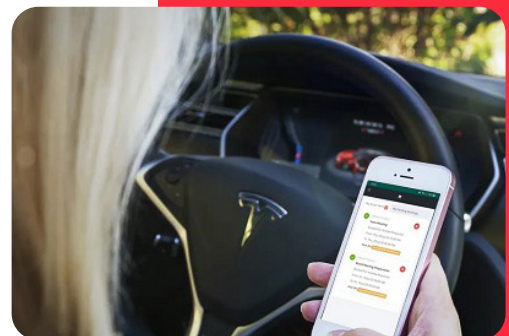

Integrated Visitor Management

An integrated visitor management system to create a great brand experience for your visitors. Invite visitors within the meeting room booking. Pre-registration and walk-in registration allows smooth on-boarding while maintaining security. Kiosk to perform self-registration using QR-Code or PIN. Get notified when visitors arrive at your office.

Mobile App Booking

Use your mobile app to check for availability , book, extend or cancel your bookings from anywhere at anytime. Use the check-in/ check-out feature to ensure that your space is always available. Get notified on your meetings as well as requests for approvals. Scan QR-Codes to quickly book meeting rooms or desks.
